Subject: Recommendation Letter for Gabriele Gorrieri

To Whom It May Concern,

I am pleased to write this letter of recommendation for Gabriele Gorrieri, who I had the opportunity to supervise during their thesis project for their degree in Labor Relations. Gabriele completed their thesis in collaboration with Coopservice, utilizing Power BI to address practical workplace challenges.

Throughout the project, Gabriele demonstrated a strong work ethic and a genuine commitment to achieving their objectives. They were proactive in learning the tools and techniques required to manage and analyze data effectively, showing a solid ability to apply theoretical knowledge in a real-world context. Their dedication and attention to detail were particularly evident in their efforts to meet deadlines and deliver results aligned with the project's goals.

While there is room for growth in refining their analytical approach and presentation of results, Gabriele has laid a solid foundation for further development in the field. I am confident that their determination and willingness to learn will serve them well in future endeavors.

Please feel free to contact me for any additional information.

Sincerely,

Prof. Giovanni Simonini

Associate Professor
